

## Surprise Surprise

This presentation discusses the safety risk elements of owner/operator maintenance, managing distractions, multi-engine emergency procedures and training, and the startle response to emergencies. Factors that contribute to Loss of Control accidents include; pilot proficiency, Aeronautical Decision Making (ADM), inadequate hazard identification and risk assessment, hazardous operational environment and human factors.

**Directions:** This event will be in the airport terminal building.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
